REDUCE INK MIGRATION

We offer inks that mitigate ink migration on packaging for foods, beverages, cosmetics, and pharmaceuticals. These inks perform well on thinner, more environmentally friendly materials.

AVAILABLE TECHNOLOGY

- Continuous Inkjet
- Piezo DOD
- Thermal Inkjet

AVAILABLE INK TYPES

- Nano Water-based Pigment
- Bio-based Mineral-oil-free (MOF)
- Electron-beam (EB) curable
- Low-migration UV/LED-curable
- Water-based Dye
- Water-based Pigment

SUBSTRATES INCLUDE

- Flexible packaging
- Glass
- Paper
- Bio-plastics
- Stone
- Non-porous materials

INDUSTRIES INCLUDE

- Beverage
- Food
- Furnishing
- Medical
- Textile
